

YOU HAVE A GREAT HEADSHOT

DO YOU HAVE A GREAT REEL?

Casting directors and other industry decision makers are now requesting reels as much as they are headshots. In many markets such as Los Angeles, they are requesting actor reels first. These are the people who can advance your career in film and television and you want to be ready with the most contemporary, cutting edge tools available to promote yourself and your work.

OTL will assemble your on camera work using the latest cutting edge technology to give you the maximum impact. An engaging well-edited reel is your most powerful marketing tool.

Once your basic reel/montage is created, we can create a custom DVD complete with customized interactive menu's, slldeshows, and music to showcase all of your work. We create a unique, engaging package that sets you apart in the most professional way.
